

The near heroic efforts of [Millers Party Centers](#)!, Damon Ferber, and Peter Wroblewski were appreciated by all, as mother nature put them and New York City's first and only "*Tres' Chic*", black custom made tent to the test Wednesday evening. Torrential winds and rains might have dampened the outside of this beauty but not a drop got through to spoil the fun of Susan Sarandon, Mimi Rogers and friends as they got together at FAO Schwarz after the Preview Screening of New Line Cinema's Release of **Lost in Space**.

Thanks to, [New Line Cinema](#), FAO Schwarz and specially JRM Nobles' Tommy Caruso and John McKillop for another chance to work and play in New York.
